

MED GRAPH APPOINTS BOYLAN, BROWN ATTORNEY MONTIETH ESTES TO ITS BOARD OF DIRECTORS

Rochester, N.Y. – August 14, 2003 – Med Graph Inc., today announced the appointment of J. Montieth Estes of counsel with Boylan Brown Code Vigdor & Wilson as a director on Med Graph's Board of Directors.

"We are pleased to announce the appointment of Montieth Estes to the Med Graph Board of Directors," said Ed Schlueter, chief executive officer of Med Graph. "Mr. Estes brings depth and breadth to the Med Graph board to position the company for growth. Mr. Estes' legal, scientific, innovation and strategic skills are of great value and are an excellent addition to the Med Graph executive team."

Estes, who has a degree in chemical engineering from Cornell University and a law degree from the Harvard Law School, focuses his legal practice on emerging technology companies, including capital formation, domestic and international product distribution, intellectual property protection, and mergers and acquisitions.

"Med Graph is a cutting edge developer of telecommunication based monitoring systems for the medical community and as such brings greater efficiencies and better data collection methods for physicians, hospitals, and insurers" Estes said. "This field is rapidly changing the medical device industry and provides great growth opportunities for Med Graph".

Estes also served as chief operating officer and executive vice president of Scientific Calculations, Inc., of Victor, N.Y. The company designed hardware and CAD/CAM software for the electronics industry. Its state of the art systems were licensed worldwide.

About Med Graph

Med Graph is a medical device and informatics company that provides technology and infrastructure to manufacturers of home healthcare monitoring devices. The company's patented method and system technology enables their products to passively collect critical diagnostic data and transparently deliver that data in graphical summary form to medical professionals. By having access to individual patient usage data for the first time, manufacturers will better capture and increase disposables sales, their predominant source of earnings. The company has issued patents and completed its first licensing agreement with a major medical device manufacturer in May of 2002. For more information about Med Graph, visit www.med-graph.com.
